Is A Gann Myth?

Can Nifty or Stocks Target and Turning Zone Predicted with the help of Gann Square of 9?

- Red Circle shows Major movement of Nifty.

Nifty has made top of 9118.

On square of 9 we have located 91(91*100=9100). From 91 Next major support is 86 and 81

It's a history ...when market fell from 9118 the first stop was 8100.

- Green circle shows more fine tune movement of Nifty.

The points are 757 771 785 799 813 827 841 856 871 886 901.....

Now let us analyse:

Market has made a top-bottom as follows

9118 -8270; 8270-8840; 8840-7997; 7997-8441; 8441-7940; 7991-8654; 8654-7540.....

Let us analyse..

Most of the top and bottom of market falls on Gann square of 9 points.

9118(91)= gann point

8270(827)= gann point

8840-(886)= gann pont

7997(799)= gann point

8441(841)= gann point

As per **Gann square of 9** we get a very good idea of Tops and bottom from long term and Short term Perspective.

Even Intraday to Short term movement can be predicted from Gann Square of 9.

Now These levels are good for intraday Trading.

Let us analyze for current week.

- 28-12-15: 7863-7937
- 29-12-15: 7941-7904
- 30-12-15: 7944-7889
- 31-12-15: 7899-7955
- 1-1-16: 7909-7972
- 3-1-16: 7937- 7781

Trend deciding level: 785- 7892 –7936 -7981

After 7852 Market first halt at 7936 and the pull back support at 7892 zone. After 7892 market went in 7980 zone. From there market came near 7852 now below 7852 market will take support @ 7760, 7715. 7702- 7715 is good zone for buying with stoploss of 7680.

Guys its not miracle.... Its **A science of number**

Hats Off To Legendry W D Gann who has given us such a wonderful Tool.

We have attempted to explain you this tool in **Free Seminar** in your city
