

Gold

CMP: 32281

Gold The ultimate target for gold as per the current pattern comes around 32750. For short term gold important supports are 31850 32000 on down side and important resistance on upside 32440 and 32750. Any dip is opportunity to buy till the time gold trades about 31700.

Silver

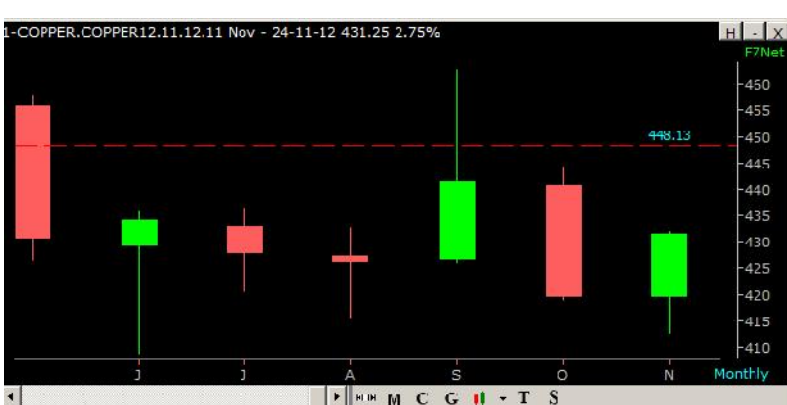

CMP: 63526

Silver for the short term is in teji. For coming week 64500-65000 is the possibility on the upside. 64500-65000 zone should act as a good resistance. On the downside 62600 and then 61560 should act as a good

correction followed by good buying in the silver. For daily update check your sms.

COPPER **CMP: 430.95**

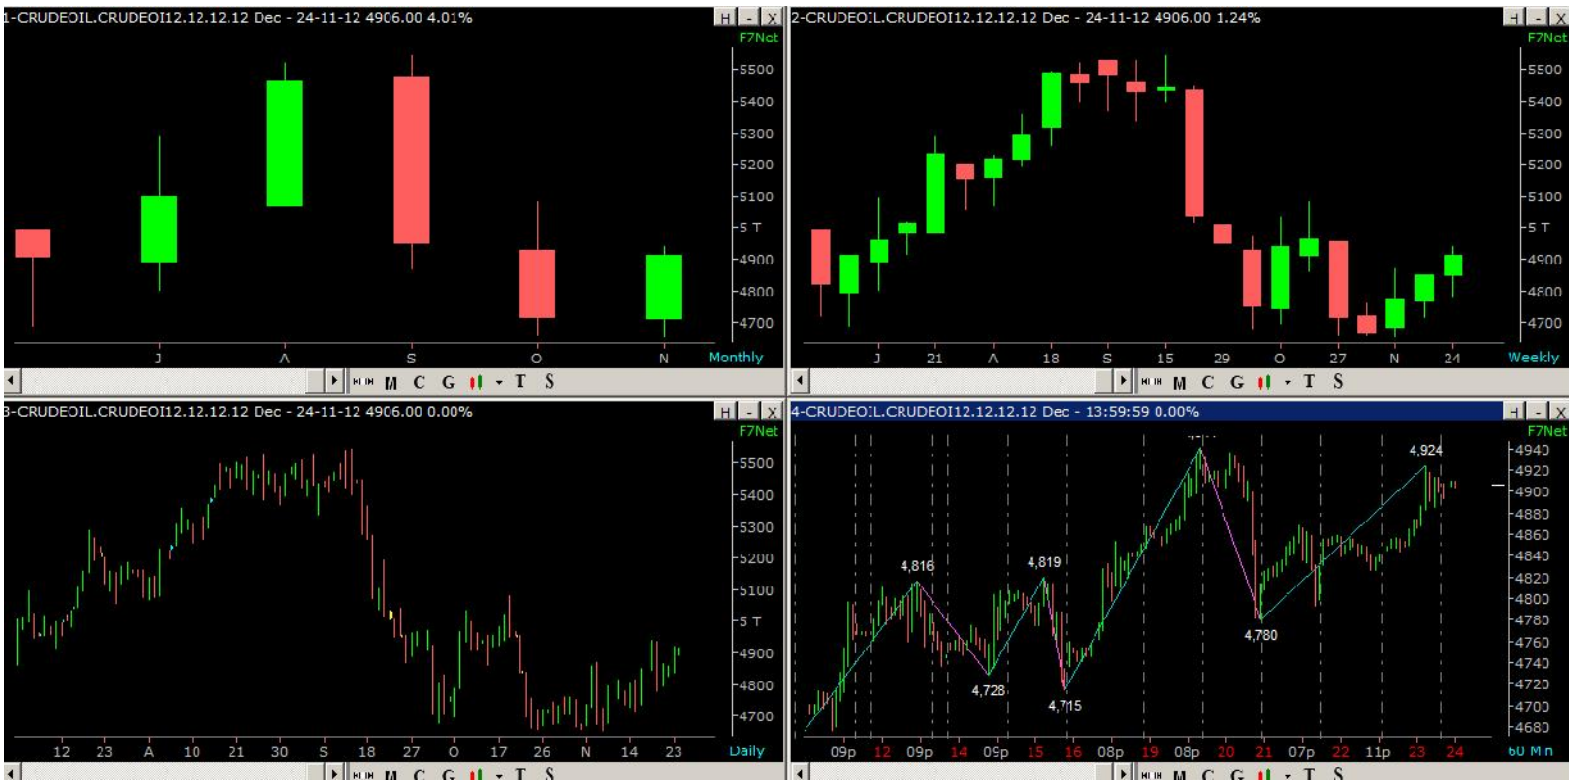

Copper has strong resistance in 432-435 zone. 444 is the important level to watch out. Till the time copper is above 425 it's a buy on dip commodity. A trade below 425 will call for mandi. 442 on upside is copper target and 420 on the down side is the probability of copper.

Crude oil

CMP: 4906

Crude oil is in teji mode .Crude oil above 4950 is heading for 5080. We can think of initiating short position around 5080 with a small stoploss of 5100. On the downside **4870-4880 act as good support** for buying .Copper will show mandi only and only if start to trade below 4830. Below this 4780 is important support for buying.

NICKEL

CMP: 920.10

The great commodity to trade . Nickel is in side ways for atleast a year .850strong support zone and 980 strong resistance zone . For coming week we are in teji for the target of 930 -935and above 935 nickel shall be heading towards a 980-1000 zone.Any dip around 880-890 is opportunity to buy .But a close below 870 should be taken as a symptom of mandi and then nickel may head towards 775 levels.

Natural Gas

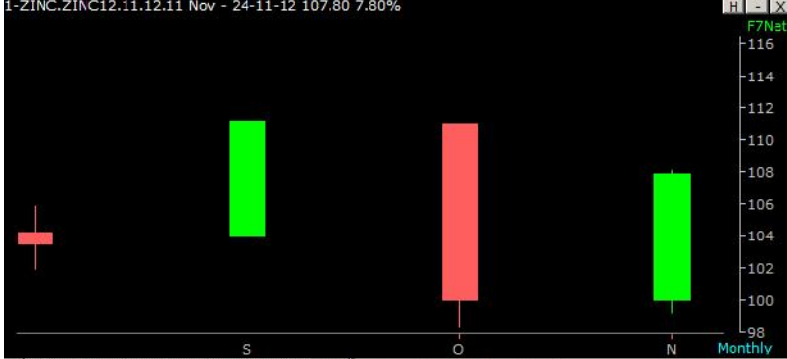

CMP:216.10

Natural gas important level to watch for is 205. As per chart a break above 215 will call for teji for the target of 235. Downside strong support is around 195-197 band. Below 190 we may see 182 and below 182 175.

ZINC

CMP:107.70

Zinc for the short term is in Teji. As you can see on the chart 112 is the target for current teji in zinc. Be cautious around 112 as we can expect retracement upto 105-107 from this level

LEAD **CMP:121.90**

Lead is in good teji, But 124 is mother of all resistance. Hence around 124 we can short lead with stoploss of 125. Above 124 127 is big resistance. On downside we may see levels around 118 and 113. At current price lead is in teji and 124 is strong resistance zone. Below 117 we may expect levels around 113.
